

The Cognitive Neuroscience Lab, headed by Prof. Dr. Ulrike Krämer ([cns-luebeck.com](mailto:cns-luebeck.com)) at the Department of Neurology, University of Lübeck, is seeking to hire a

## **Post-doctoral Researcher or PhD student**

starting by April 2023, initially for 3 years, with the option of extension. The successful candidate will get involved in the lab's research projects on empathy, aggression and hormonal influences on social behavior and, depending on level of expertise, should develop her/his own line of research within the lab's research framework.

We are looking for a person with a MSc in Psychology, Cognitive Science, Neuroscience or related fields. Expertise or strong interest in human neuroscience methods (EEG, fMRI) and in programming and statistical analyses (MATLAB, R) is expected. In case of postdoctoral candidates, people with background in advanced EEG analysis methods are especially welcome to apply.

The position involves teaching seminars in Basic Psychology and Cognitive Neuroscience (typically 4 hours/week during the semester). As teaching is primarily in German, candidates are expected to have German language proficiency.

The lab is located at the Center of Brain, Behavior and Metabolism (CBBM; [cbbm.uni-luebeck.de](http://cbbm.uni-luebeck.de)), which offers an excellent and state-of-the-art research environment. At the CBBM, several EEG-systems, an fNIRS-system and a research dedicated Siemens Skyra 3T MRI are available.

The University of Lübeck is a modern university specializing in Medicine, Computer Science, Molecular Biology, Psychology, Biomathematics and Medical Engineering. Internationally renowned research and high standards of academic tutoring characterize the profile of the university.

Payment will follow salary group E13 TV-L (100%), if conditions based on German Public service regulations are satisfied. The University of Lübeck is an equal opportunities employer. Applications from female candidates are strongly encouraged. In case of compatible qualifications, preference will be given to people with disabilities

Questions regarding the position can be directed to Prof. Ulrike Krämer ([ulrike.kraemer@uni-luebeck.de](mailto:ulrike.kraemer@uni-luebeck.de)). Applications should include a letter of motivation, CV (including, if applicable, a list of publications) and contact details of two potential references. Applications should be sent as single pdf-file to Ulrike Krämer (email above). Applications will be considered until February 15<sup>th</sup>, 2023 or until the position is filled (whichever happens first).
